

Budgetary

TRIO's Budgetary system is a modern, ergonomic municipal accounting system developed for Maine municipalities, with the help of Maine municipalities. TRIO was built to make handling the day-to-day tasks of managing a municipal government's needs as easy as possible.

Key Features

- Create journals with simple data entry processes.
- Utilize multiple journal types including Accounts Payable, Cash Receipts, and General Journals.
- Efficiently process Accounts Payables and print checks and warrants with signature lines.
- Flexible check formats allow you to print to preprinted stock or create a custom check and print to blank check stock.
- Maintain an up-to-date database of vendor information using TRIO's Vendor routines.
 - The system will automatically track all vendor information for easy printing of lists, labels and 1099s.
- Easily balance checking accounts using the Check Reconciliation option.
 - All entries made to cash accounts may be tracked in the appropriate banks within the program.
- Quickly create and maintain budget figures for all accounts with the user-friendly Budget Process and Custom Budget reports.
- Simple, time saving End of Year procedures. Easily access prior fiscal years.
