

## Tax Billing

TRIO's Tax Billing system is designed to handle all aspects of the Real Estate and Personal Property billing process.

### Key Features

- Calculate and generate tax bills easily.
- Access several functions available in Real Estate Assessing including cost files, printing real estate lists and labels, and the tax rate calculator.
- Simple four step billing process includes printing bills and commitment book.
- Automatic journal creation for the Budgetary system.
- User-friendly process to create supplemental commitments and bills.
- Print bills in various formats including laser and dot matrix or create your own custom format with TRIO's custom bill setup.
- Generate a printing file that can be sent to an external company to print bills.
- Integrates with the Tax Collections system for immediate transactions to new bills.
- Create account associations to group real and personal property accounts for combined billing.
